

Pearson Edexcel International Advanced Level

Mathematics Qualifications (2018)

A round-up of your support

The modular route to success

First assessment for the updated Pearson Edexcel International Advanced Level Mathematics units took place in January 2019. The Pearson Edexcel International A Level is comparable to the UK A level qualification, ensuring recognition as a world-class qualification so students can progress wherever they want to.

We've put together this handy infographic about the support available to you. Simply click on the links provided in the information below to quickly access our unique tools.

IALs

Comparable to the GCE A Level as externally benchmarked by NARIC[^].

Don't forget to bookmark this infographic for instant future access to your support.

Why choose Pearson Edexcel IAL Mathematics qualifications?

- **Variety of qualifications to choose from** - Mathematics, Further Mathematics and Pure Mathematics.
- **Modular structure** with multiple examination opportunities, including re-sits, for most subjects.
- **Designed specifically** for international students with updated and internationally relevant content.
- **Comparable to UK A levels**, as confirmed by NARIC[^], and recognised by leading universities worldwide.
- **Accessible examination papers**, with logical progression of difficulty throughout and consistency in template and design.

Meet students, alumni, teachers and educators around the world sharing their experiences of Pearson Edexcel IALs.

Get access to unique teaching and learning support

Whether you're already teaching our new qualifications or considering switching to Pearson Edexcel, take a look at the variety of free support on offer for your subject, including:

- **Specification** and **Getting Started Guide** - providing all you need to get going.
- **Schemes of Work** - downloadable for each of the 14 units within the Mathematics qualifications.
- **Specimen papers & mark schemes** - helping you better prepare your students
- **Exemplar material** - demonstrating the structure of the redeveloped Pure Maths Units.
- **Mathematical formulae and statistical tables** - a useful guide, arranged by unit, listing formulae required in examinations.
- **Pearson Maths Emporium** - a free website, with access to all our maths qualifications documents and information from our Subject Advisor.

Keep checking for new updates to your free support and access all the above here.

Missed a training session? No problem!

The best exam preparation and practice

Use our tools and Pearson Edexcel endorsed resources to provide plenty of exam practice as well as track and monitor progress.

Student books* written by experienced teachers and authors, and series editors Joe Skrakowski and Harry Smith, provide students with the best preparation possible for the examination.

Sample assessment material developed to support this qualification and act as a benchmark to develop the assessment students will take.

Additional assessment material - including the most recent question paper (January 2019), mark schemes and examiner reports - the first available for the new qualification!

Use **examWizard** to create your own bespoke mock exams and tests.

Interpreting mock results and planning effective intervention

Use our services and support to help you analyse and understand your students' results and identify your priorities for the coming year with our unique ResultsPlus service.

Prepare your learners for more than just a grade

Universities and employers demand students with transferable skills (cognitive, intrapersonal and interpersonal).

We've provided **skills mapping and transferable skills subject definitions documents** for your subject area, so you can easily identify what skills can be developed in your day to day teaching.
