

# Delivering BTEC during Coronavirus (COVID-19)

## Streamlined internal assessment guide

Level 2 BTEC Internationals

Level 3 BTEC Internationals

Level 3 BTEC Nationals (QCF)

# Introduction

Pearson implemented 'adaptations' for some International qualifications at the beginning of the 2020/21 academic year, which were supported by the UK regulators. These were later replaced by the 'Teacher Assessed Grade' (TAG) processes when exams were cancelled. Regulators have advised that some adaptations are permitted to UK regulated qualifications, so in keeping with our policy to ensure equality across UK and International we are introducing the same changes to International qualifications.

A key consideration is that in 2020/21 we were not able to issue Unit Certificates (also known as Notifications of Performance or NOPS) due to the holistic process put in place. We worked closely with Higher Education Institutions to ensure that BTEC learners were not impacted as a result of this, but we appreciate that the NOPS are an important aspect for many HEI admissions, as well as forming an essential part of Government recognition. In consideration of this, we are implementing updated adaptations called 'streamlined assessment' for the qualifications listed within this guidance.

**Please note that not all qualifications are able to use the streamlined adaptations, and some qualifications do not have any assessment adaptations in place, due to their smaller size.**

## Streamlined Internal Assessment

Streamlined Assessment will be applied to most qualifications in the following BTEC Qualification Suites:

- Level 2 BTEC Internationals
- Level 3 BTEC Internationals
- Level 3 BTEC Nationals (QCF)

## Adaptations for 2021/22

Please note the following requirements:

- All content must be taught.
- Although adaptations are available, centres should consider whether it is necessary to make the adaptation to give time back to teaching and learning. Adaptations can be applied at a centre's discretion where the pandemic continues to impact learners.
- Adaptations are only available in this academic year, for assessment due to take place between 1 September 2021 and 31 August 2022.

### Types of adaptation

Adaptations can take one of two forms:

1) **'Streamlined unit assessment'** (also referred to as 'streamlining') – in this adaptation, the number of internally assessed units that need to be assessed in full is reduced. These can be mandatory or optional units. Centres must avoid streamlining assessment of units required for HE progression. Streamlining is available for many qualifications in the BTEC International Level 2 and 3 and BTEC Nationals (QCF ) suites.

2) **'In-unit adaptation'** – in this adaptation, the amount of assessment evidence needed to meet criteria within a unit has been reduced. This adaptation is applied within the Level 3 International Creatives qualifications. Further information for this subjects can be found in the Teaching and Assessment Support Guides for each subject.

### Learner eligibility

Adaptations are only available in this academic year for assessment due to take place between 1 September 2021 and 31 August 2022.

There are currently no plans to have these adaptations extended to learners who take assessments in 2022/23, regardless of when they are due to certificate.

Please note that some qualifications will not have streamlined internal assessments because they have one or more of the following characteristics:

- The qualification is deemed to be too small to adapt
- In-unit adaptation has already applied, for example certain Level 3 Creative qualifications identified in this guidance document

## Implementation of streamlined assessment

The following principles will apply:

- Streamlined assessment is available to create additional time for teaching, learning and access to facilities like workshops, studies and laboratories.
- All content in streamlined units must be taught.
- Centres should plan to take all assessments for the 2021/22 academic year even if some are streamlined.
- The option to streamline the number of assessments indicated in this guidance document is at the centre's discretion: they should use it where they feel it necessary to mitigate the continued impact disruption caused by the pandemic on learners.
- Centres should prioritise normal assessment of mandatory units, and those that have been identified as important for learner progression (e.g. linked to HEI admissions). Streamlined assessments should ideally be applied to optional units and only be applied to mandatory units as a last resort.
- Centres can choose to assess all units, and not use the streamlined internal assessment option if they are able to assess all content.

### How to administer streamlined assessments

- Where streamlined assessment is applied, centres must assess at least **one** learning aim/outcome that covers all available grades for the unit.
- A grade must be awarded and submitted on EOL with the relevant 'streamlined flag' (further administration guidance to follow).
- Centres should continue to 'bank' units through the year using the 'interim' claims function in EOL.
- Centres will need to declare which units have been subject to streamlined assessment (further administration guidance to follow).
